# TABLE OF CONTENTS

## NUMBER 1, JULY 1970

Aaronson, S A, Todaro, G J & Freeman, A E, Human sarcoma cells in culture. Identification by colony-forming ability on monolayers of normal cells 1

Ammermann, D, The micronucleus of the ciliate *Stylonychia mytilus*; its nucleic acid synthesis and its function 6

Wise, G E & Flickinger, C J, Relation of the Golgi apparatus to the cell coat in amoebae 13

Andersen, C R & Larson, B L, Comparative maintenance of function in dispersed cell and organ cultures of bovine mammary tissue 24

Miki-Noumura, T & Kondo, H, Polymerization of actin from sea urchin eggs 31

Byfield, J E & Lee, Y C, The effect of synchronizing temperature shifts on the synthesis and translation of replication-supporting messengers in *Tetrahymena pyriformis* 42

Sweet, B H & McHale, J S, Characterization of cell lines derived from *Culiseta inornata* and *Aedes vexans* mosquitoes 51

Epel, D, Weaver, A M & Mazia, D, Methods for removal of the vitelline membrane of sea urchin eggs. I. Use of dithiothreitol (Cleland reagent) 64

Epel, D, Methods for removal of the vitelline membrane of sea urchin eggs. II. Controlled exposure to trypsin to eliminate post-fertilization clumping of embryos 69

Evenson, D P & Prescott, D M, RNA metabolism in the macronucleus of *Euplotes eurystomus* during the cell cycle 71

Cox, R F & Sauerwein, H, Studies on the mode of action of progesterone on chicken oviduct epithelium. I. Morphological changes associated with early differentiation of the tissue 79

Giese, A C, Macromolecular synthesis during regeneration in *Blepharisma* determined by specific inhibitors and incorporation of $^{14}C$-tracers 91

Spiegel, E S & Spiegel, M, Some observations on the ultrastructure of the hepatocyte in the metamorphosing tadpole 103

Griffin, J L, Orientation of human and avian erythrocytes in radio-frequency fields 113

Sonnenschein, C, Richardson, U I & Tashjian Jr, A H, Chromosomal analysis, organ-specific function and appearance of six clonal strains of rat pituitary tumor cells 121

Lagunoff, D, Pritzl, P & Mueller, L, *N*-acetyl-$\beta$-glucosaminidase in rat mast cell granules 129

Voûte, C L & Ussing, H H, The morphological aspects of shunt-path in the epithelium of the frog skin (*R. temporaria*) 133

Potter, C G, Microspectrophotometry and autoradiography in the study of DNA values of cells in tissue culture 141

Boll, I T M & Fuchs, G, A kinetic model of granulocytopoiesis 147

Levis, W R & Robbins, J H, Effect of glass-adherent cells on the blastogenic response of "purified" lymphocytes to phytohemagglutinin 153

Lavappa, K S & Yerganian, G, Spermatogonial and meiotic chromosomes of the Armenian hamster, *Cricetulus migratorius* 159

Van't Hof, J, Metabolism and the prolonged retention of cells in the G1 and S period of the mitotic cycle of cultured pea roots 173

Takeuchi, I & Yabuno, K, Disaggregation of slime mold pseudoplasmodia using EDTA and various proteolytic enzymes 183

Alvarez, M R, Microfluorometric comparison of Feulgen-deoxyribonucleic acid hydrolysis in meristematic and differentiated cells of the orchid embryo 191

## PRELIMINARY NOTES

Hatano, S, Specific effect of $Ca^{2+}$ on movement of cytoplasm in plasmodial fragment obtained by caffeine treatment 199

McDougal, W S & DeCosse, J J, Method for determining differential secretory function of isolated cells in vitro. Chloride movement in isolated parietal cells 203

Viti, A & Bocci, V, Minimal catabolism of "native" $^{125}I$-albumin and $^{131}I$-$\gamma$-globulin by polymorphonuclear leucocytes 206

Makarova, G F, Initiation of mitosis independent of DNA synthesis in a polyoma virus-infected confluent cell culture 208

Kuroki, T & Sato, H, Partial synchronization of hamster embryonic cells in secondary culture 210

Duffus, J H & Mitchell, C J, Effect of high osmotic pressure on DNA synthesis in the fission yeast, *Schizosaccharomyces pombe* 213

Friedberg, S H & Davidson, D, Duration of S phase and cell cycles in diploid and tetraploid cells of mixoploid meristems 216

Goldstein, L, A radioautographic investigation of the relation between transcription and translation in a eukaryotic cell 218

Davidson, R & Ephrussi, B, Factors influencing the "effective mating rate" of mammalian cells 222

Degani, Y & Atsmon, D, Enhancement of non-nuclear DNA synthesis associated with hormone-induced elongation in the cucumber hypocotyl 226

Kirchner, H & Rühl, H, Stimulation of human peripheral lymphocytes by $Zn^{2+}$ in vitro 229

Bosmann, H B, Glycoprotein synthesis: Activity of collagen-galactosyl and collagen-glycosyl transferases in synchronized mouse leukemic cells L5178Y 230

## NUMBERS 2–3, AUGUST 1970

Dickson, J A, The uptake of non-metabolizable amino acids as an index of cell viability in vitro 235
Hilden, S, Sodium and potassium levels in *Blepharisma intermedium* 246
Asao, T, Regional histone changes in embryos of the newt, *Triturus pyrrhogaster*, during early development 255
Maslow, D E, Electrokinetic surfaces of trypsin-dissociated embryonic chick liver cells 266
Blomgren, H, Changes of the "radioresistant" thymic lymphocyte population following X-irradiation of mice 271
Kanatani, H & Hiramoto, Y, Site of action of 1-methyladenine in inducing oocyte maturation in starfish 280
Inoue, S, Buday, A & Cousineau, G H, Observations of sea urchin spermatozoa with the surface replica method 285
Barka, T, Effect of isoproterenol on ribonuclease activity of salivary glands 290
Comings, D E & Okada, T A, Electron microscopy of human fibroblasts in tissue culture during logarithmic and confluent stages of growth 295
Stampe-Villadsen, I & Zeuthen, E, Synchronization of DNA synthesis in *Tetrahymena* populations by temporary limitation of access to thymine compounds 302
Zeuthen, E, Independent synchronization of DNA synthesis and of cell division in same culture of *Tetrahymena* cells 311
Alvarez, M R & Reyniers, J P, Microspectrofluorometric comparison of acridine orange dye binding in meristematic and parenchymal nuclei of the orchid embryo 326
Jasińska, J, Steffen, J A & Michałowski, A, Studies on in vitro lymphocyte proliferation in cultures synchronized by the inhibition of DNA synthesis. II. Kinetics of the initiation of the proliferative response 333
Alescio, T, Moscona, M & Moscona, A A, Induction of glutamine synthetase in embryonic retina: effects of partial and complete inhibition of RNA synthesis on enzyme accumulation 342
Houssay, D & Prenant, M, Détermination par les techniques de microchirurgie du rôle respectif du noyau et du cytoplasme dans la croissance et dans la durée de l'interphase chez *Thecamoeba sphaeronucleolus* 347
Wang, K-M, Rose, N R, Bartholomew, E A, Balzer, M, Berde, K & Foldvary, M, Changes of enzymic activities in human diploid cell line WI-38 at various passages 357
Phillips, M & Hersh, R T, Dissociation studies on the 80S ribosome from *Pisum sativum* 365
Anderson, K M, Lee, F H & Miyai, K, Effects of androgen in vivo on some properties of isolated rat ventral prostate nuclei 371
Bosmann, H B & Bernacki, R J, Glycosidase activity: glycosidase activity in L5178Y mouse leukemic cells and the activity of acid phosphatase, $\beta$-galactosidase and $\beta$-*N*-acetyl galactosaminidase and $\beta$-*N*-acetyl glucosaminidase in a synchronous L5178Y cell population 379
Bach, M K & Brashler, J R, Isolation of subpopulations of lymphocytic cells by the use of isotonically balanced solutions of Ficoll. I. Development of methods and demonstration of the existence of a large but finite number of subpopulations 387
Brewer, J E & Bell, L G E, Long-range electrostatic interactions between amoebae and anion-exchange particles 397
Wartiovaara, J & Branton, D, Visualization of ribosomes by freeze-etching 403
Kurtti, T J & Brooks, M A, Growth and differentiation of lepidopteran myoblasts in vitro 407
Burkholder, G D & Mukherjee, B B, Uptake of isolated metaphase chromosomes by mammalian cells in vitro 413
Odintsova, M S, Mikulska, E & Turischeva, M S, Electron microscopy of DNA in chloroplasts of pea 423
Pfohl, R J, Initiation of cleavage in frog eggs. An analysis of active large granule fractions from frog liver tissue homogenates 433
Krause, M O, In vitro studies with RNA polymerase. Detection of structural changes in formalin-fixed L cell nuclei at different stages of growth 444

## PRELIMINARY NOTES

Wiepjes, G J & Prop, F J A, Improved method for preparation of single-cell suspensions from mammary glands of adult virgin mouse 451
Wang, T Y, Activation of transcription in vitro from chromatin by non-histone proteins 455
Nelson, R D & Yunis, J J, Expression of constitutive heterochromatin in cultured fibroblasts from *Microtus agrestis* 457
Sanders, E J, Pinocytosis in centrifuged and bisected amoebae 461
Auersperg, N & Gartler, S M, Isoenzyme stability in human heteroploid cell lines 465
Jackson, J F, Toxicity of sulfhydryl compounds to cultured human lymphocytes 468
Hille, M B, Barrett, A J, Dingle, J T & Fell, H B, Microassay for cathepsin D shows an unexpected effect of cycloheximide on limb-bone rudiments in organ culture 470
Caspersson, T, Zech, L, Johansson, C, Lindsten, J & Hultén, M, Fluorescent staining of heteropycnotic chromosome regions in human interphase nuclei 472
Caspersson, T, Zech, L & Johansson, C, Quinacrine mustard-fluorescence of human chromosomes 4,5 and X 474
Caspersson, T, Lindsten, J & Zech, L, Identification of the abnormal B group chromosome in the "cri du chat" syndrome by QM-fluorescence 475
